

Fluid Atomizer

1.65MHz and 2.4MHz Nebulizer Boards,

Specifications	
Rated Input Voltage	48VAC
Max. Power Input	29 ±1 Watts
Mist Output Ratio	~350cc/hr
Resonant Frequency	1.65MHz or 2.4MHz
Transducer Element Life	~10000 hrs
Current	0.6A
Operating Water Temperature	20°C ~ 50°C
Water Quality	Drinking Water
Min. Water Level	30 mm
Dimensions	4 1/4" x 2 3/4" x 7/8"

Features

- Create natural mist for special effects or humidity control
- Applications: home humidifiers, fountains, water statuary or indoor ponds
- Power adapter not included
- Unit must be properly cooled to prevent overheating
- 2.4 MHz and 1.65 MHz Replacement Assemblies Available
